

...And How Are The Children?

A Snapshot of 2008

Community Report

First 5 Amador has helped 80% of the county's children 0-5 through health & dental care, behavioral health assistance, & early childhood education!

Why the First 5 Years?

A child's brain develops more dramatically in the first 5 years than at any other time in their life. How we nurture and care for our children during their first years impacts them on emotional, physical, and intellectual levels for the rest of their lives. First 5 Amador is working and partnering in the community to ensure that all children are prepared to succeed in school and in life.
