

# Infant-Caregiver Psychotherapy & Caregiver Support

Thursday, February 11  
6:00 – 8:00 pm

10877 Conductor Blvd, Sutter Creek

Presented by **The Infant-Parent Center  
of Placerville**

Join Jen Kalsbeek of The Infant-Parent Center, as she provides an overview of the social-emotional and brain development of children prenatal to age three. Throughout this time we will discuss the powerful impact primary caregivers play on this development. These essential relationships not only include children's parents, but caregivers as well. Thus, we will provide information on the importance of nurture and safety, as well as the challenges caregivers face in times of difficulty.

Hand-outs and Raffle Prizes will be provided!

To **RSVP**, please contact The Resource Connection at  
**(209) 223-1624**
