

Attention all child care providers and preschool teachers!

Are you curious about children's behavior or development?

We take children for dental checkups and well-child checkups... an ASQ is a developmental checkup to ensure that children are on track! Join us to learn how to use and implement these easy screenings into your child care program or preschool!

The Ages & Stages Questionnaires (ASQ's) are quick and easy developmental screenings that are designed for children ages 0-5, to be completed by parents or primary caregivers.

These questionnaires encourage parent-caregiver involvement, and helps parents learn more about their child's development. If there are developmental or behavior concerns, they will be highlighted in the final scored results of the questionnaires.

Wednesday, November 16

6:00 - 7:30 pm

975 Broadway, Jackson

Receive your own ASQ Kits for attending!

Dinner will be provided!
